

Existing Conditions

Proposed Design

New flush-mounted sign should be installed either as vinyl graphics or professionally hand painted. Sign board should be bolted to the wall through the brick mortar joints.

Section should be repainted a color that closely matches the color of the brick.

## ILLINOIS MAIN STREET PROGRAM

The Illinois Historic Preservation Agency, through the Illinois Main Street Program, has provided this free design assistance to qualified property/business owners in the officially designated Main Street district. This conceptual rendering is based on information supplied to the staff. Should obscured architectural details or problems be revealed during the work, the local project manager and/or the staff architects should be consulted.
